

Homes Not Hate Maple Ridge is a community campaign led by the street population and low-income residents of Maple Ridge and supported by Alliance Against Displacement

Support our 4 demands
& join the campaign

Homes Not Hate Maple Ridge

1. Homelessness is not a crime

End bylaw harassment, move-alongs, and theft from homeless people

2. Remove the barriers to survival services

Let homeless people use the foodbank, open drug user services, and end the institutional rules in social housing. We need basic health, food, and shelter services without barriers.

3. Tent cities are hate-free zones

Tent cities mean safety and community. We need the city to give us a piece of land where we can organize our community without threats and harassment.

4. Homes now!

We need housing right away and in the future. The government should buy Quality Inn to house us now, until permanent low-income affordable social housing that is run like ordinary apartments housing can be built.
